

To Whom It May Concern,

Air 1 radio is a positive alternative music station in my community.

I have watched while my two teenage daughters have become more aware of the needs of their community and world around them by the things learned from the music on air 1. In the last year, I have seen several of my girls friends find comfort in the messages in the music. From lost sibling to abusive relationships. Please donot take away the one radio station in our community that these teens find refuge. Sincerely Lynn Johnson
